

VILLAGE OF
BURR RIDGE
A VERY SPECIAL PLACE

According to the National Weather Service, there will be an extended period of snowfall this weekend. Beginning Saturday evening and extending through Monday morning, there will be a weather system moving through the area which will bring heavy amounts of snow, particularly overnight on Saturday. The prediction is for a total of 6 to 9 inches of snow locally and higher as per the most current US Weather Service winter storm watch.

The Village's Public Works snowplow crew will be working throughout the weekend to keep the roadways as clear as possible. Residents are reminded that vehicles should be parked in their driveways and not the street to facilitate the snowplow's clearing efforts. Note that there is a priority of street clearing order which will be enacted by the snowplows. This order ensures that emergency vehicles are able to reach as many areas of the Village as possible. For information on this street clearing order, please go to: <https://www.burr-ridge.gov/public-works/operations/snow-removal/>.

Please note that the following streets are under the jurisdiction of the Cook or DuPage County Highway Department and are their responsibility to clear:

*County Line Road
Wolf Road
Plainfield Road
German Church Road
79th Street east of County Line Road
North Frontage Road east of County Line Road
Madison Street North of I-55
North Frontage Road, West of Elm Street*

As a reminder:

- Shoveling snow from driveways onto the street is illegal and can result in roadway icing and disruption to the Village snow removal efforts.
- Residents and plowing contractors must avoid shoveling and/or blowing snow into the roadway.
- Private plow operators who are observed pushing snow into the roadway can be towed or ticketed.
- Parking on Village streets is prohibited during snowfall events of 2" or greater. Cars parked on the street during these events will be ticketed or towed.
- When a plow is approaching, please stay back from the roadway,
- Keep children away from the roadway and off of the large snow piles at each corner.

The snowplow drivers will be as careful as possible when removing snow. However, if you experience any property damage (i.e. mailboxes, etc.) please call the Village on Monday and put in a service request for repairs.

Thank you for your cooperation, be safe this weekend!
